Pansy Leaf

You need to know the following: chain, slip stitch, single crochet, how to work with padding cord and how to read charts.

Materials:

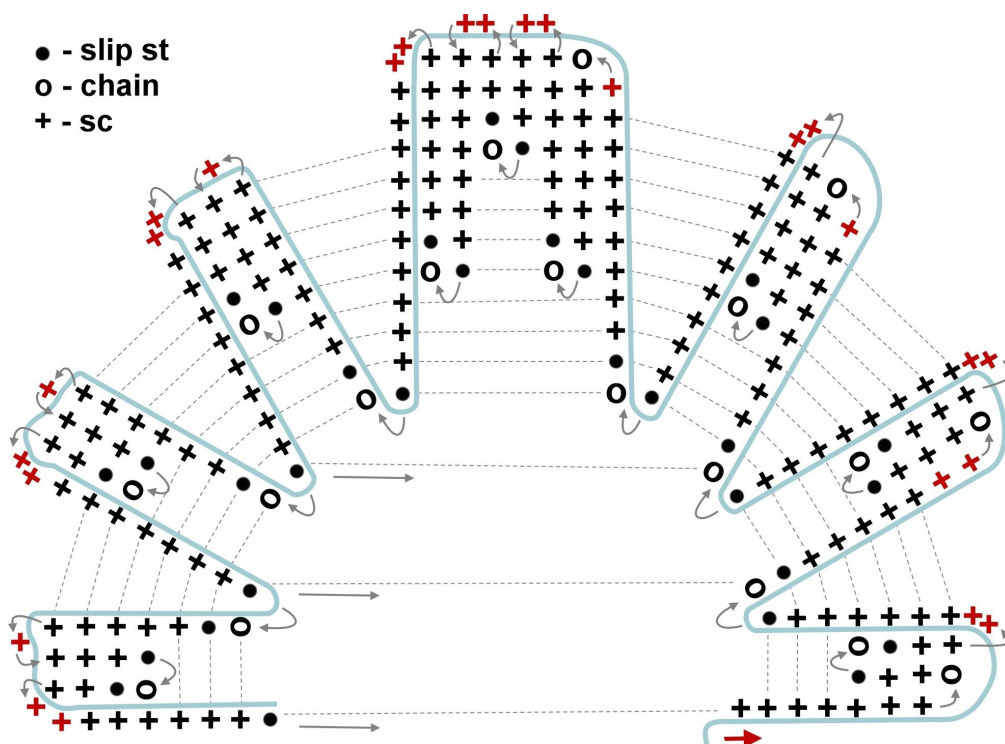

Crochet thread and appropriately sized hook. Suggested: size 10 & 1.75mm hook, size 20 & 1.5mm hook, size 30 & 1.25mm hook. Leaves will be 1.5", 1.25" and 1" long respective.

Gauge:

Not essential, use medium tension on all stitches except the chains which should be done loosely.

Notes:

Make turns counterclockwise. Not only does it give a slightly smoother edge, the chains will disappear if you make turns clockwise. I used a long tail, 16" to 24", as the padding cord. Pull padding cord after each row, pull more tightly to make leaf edges rounded.
